

Location: Physics Research Building (PRB) 4138 ("cliffhanger" room)	
Take the elevator to the 4th floor, and follow the signs	
Time	Wednesday
	Morning session
	Moderator: Martini
08:45-09:15am	coffee + snacks, registration
09:15-09:45am	David Weinberg: Cosmic Acceleration: Current Status and Future Prospects
09:45-10:15am	Claire Lamman: Redshifts by Breakfast: Going from observations to large-scale structure measurements with the DESI instrument
10:15-11:15am	astrocoffee in McPherson
11:15-11:45am	Peter Taylor: What Does BAO-free Large-Scale Structure Tell Us About the Hubble Tension?
11:45-12:15pm	Rick Kessler: My Biggest Concerns about SNIa Cosmology Results
12:15-01:15pm	lunch
	Afternoon session
	Moderator: Tucker
01:15-01:45pm	Logan Prust: Constraining SNIa Progenitor Pathways in Double White Dwarfs
01:45-02:15pm	Dillon Hasenour: Double Detonations on a Moving Mesh with Cattails and Early Time Reddening of SNe Ia
02:15-02:45pm	coffee
02:45-03:15pm	Sunny Wong: Mass Loss and Subsequent Thermal Evolution of Surviving Helium White Dwarfs Shocked by Thermonuclear Supernovae
03:15-03:45pm	discuss
	Thursday
	Morning session (early start!)
	Moderator: Kochanek
08:45-09:00am	coffee + snacks
09:00-09:30am	Tony Piro: The Curious Remnant Pa 30
09:30-10:00am	Willem Hoogendam: Thermonuclear Supernovae in the NIR Era
10:00-10:15am	Leo Derose: Early-Excess SNe Ia Show Stronger Carbon Absorption ("poster talk" - 15min)
10:15-11:15am	astrocoffee in McPherson
11:15-11:45am	Chris Burns: The Color Stretch and Other Decline Rates
11:45-12:15pm	discuss
12:15-01:15pm	lunch
	Afternoon session
	Moderator: Weinberg
01:15-01:45pm	Michael Tucker: Observational Evidence for Two SN Ia Populations
01:45-02:15pm	Shruti Ramiya: The dependence of the SN Ia colour-luminosity relation on their host galaxy environments
02:15-02:45pm	coffee
02:45-03:15pm	Mi Dai: SN Ia sample simulation using LightCurveLynx
03:15-03:45pm	discuss
06:00-08:00pm	informal dinner at The Little Grand Market in Grandview https://thelittlegrandmarket.com/
	Friday
	Morning session
	Moderator: Tucker
08:45-09:15am	coffee + snacks
09:15-09:45am	Dan Scolnic: Type Ia Supernova Puzzles That Keep Getting More Puzzling
09:45-10:15am	Suhail Dhawan: Type Ia supernova cosmology and progenitors: Connecting the Hubble Diagram and Strong Gravitational Lensing
10:15-11:15am	astrocoffee in McPherson
11:15-11:45am	Qinan Wang: Feeling Blue: Constructing a Robust SALT3 UV Template and Evidence for Redshift Dependency
11:45-12:00pm	closing remarks
